Dear Sir:

In answer to your inquiry, our product is not a regulated or restricted article for shipment by surface or air modes of transport.

A copy of Section CFR 172.101, 49 CFR is attached for your files. It is certified only to be a combustible material and therefore no labels or restriction apply.

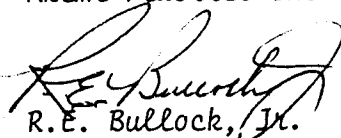

Also, the current copy of the OSHA material safety data sheet is enclosed. The material is not photo chemically reactive.

If we can be of any further service, please do not hesitate to contact us.

Thank you.

Very truly yours,
